

Stephen A. Burris, P.E.
MPSA, Inc.

Chairman, Board Advisors, Pathways to Home

BIO

Stephen Burris is currently employed as the Director for Gas Engines and New Products for Mitsubishi Power Systems Americas, Inc. headquartered in Lake Mary, FL. He is involved with the Development, Installation and Commissioning of Power Systems used for Power Generation and Energy Storage. He has worked for MPSA since September of 2008.

Prior to joining MPSA he served 26 years with the U.S. Navy as a Fighter Pilot, Test Pilot, Systems Integrator, Chief Test Pilot and Commanding Officer. His Command assignments included Air Test and Evaluation Squadron THREE ONE located in China Lake, CA, Commanding Officer Naval Support Activity, Orlando, FL, and Commanding Officer of the Naval Air Warfare Center Training Systems Division.

During his tenure with the Navy he was actively involved in the Training of future Fighter Pilots, Research and Development of Future Weapon Systems including the X-35, Test and Development of the Navy's Super Hornet (F/A-18 E/F) and the delivery of a wide range of Navy Training Systems to Fleet Operators and Maintainers.

His personal awards include the Navy's Legion of Merit and the Bronze Star for his service in Iraq as part of Operation Iraqi Freedom.

Retiring as a Captain in the U.S. Navy in 2008, Mr. Burris remains an active member of the Central Florida Community supporting several Community Outreach programs through his church – St. Stephens Catholic Community, Boy Scout Troop 617 and most recently serving as the Board Advisors Chair for Pathways to Home.
