

Biographical Information

Laurie Bailey

Crime Prevention Officer at Seminole County Sheriff's Office. In this position we set out to educate the Public on different crime prevention strategies. I have worked with the CPU for the past two ½ years, before that I worked as a Victims Advocate for the Sheriff's Office.

I am also an active member of NOVA (National Organization for Victim's Assistance). NOVA reaches out to communities that have suffered some type of trauma or disaster, a collective trauma that acts as a blow to the tissue of social life that damages the bonds attaching people together. NOVA has CRT's that go in and evaluate the needs of the community.

I am also a member of Seminole County Sheriff's Office CIT (Crisis Intervention Team). The goal of CIT is to be able to respond to a crisis call using skills and tools effectively when dealing with the mentally ill or substance abuse, which will best serve the individual and public.

I graduated from Troy State with my masters in Counseling & Psychology in 2004.
